

Revell to Tamiya paint conversion chart

148 source paints | Full chart | Updated 2026-09-05

148 of 176 source paints have a candidate in our match table. Unmapped source paints are absent from this conversion PDF. Approximate digital swatches, not physical paint measurements. Similarity compares catalog color values, not coverage or finish. Test actual paint before substituting. Sheen marked Not recorded is unverified. Catalog coverage may differ from current manufacturer availability.

Digital similarity compares catalog color values. It is not a physical paint test or a probability of an exact match. The table keeps the website's suggested alternatives and finish-class ranking. Check the printed medium and sheen before substituting.

Screen and printer colors vary. Digital swatches do not reproduce metallic effects, translucency, texture, or the influence of primer, thinning and lighting. Check the current manufacturer product information and test paint on a spare piece before committing to a model.
