

Tamiya paint chart

87 paint entries | Full chart | Updated 2026-09-28

Approximate digital swatches, not physical paint measurements. Similarity compares catalog color values, not coverage or finish. Test actual paint before substituting. Sheen marked Not recorded is unverified. Catalog coverage may differ from current manufacturer availability.

Numbers identify products in the named range. Sheen is recorded where available; metallic effects are identified separately. Not recorded means the catalog does not supply that detail.

Screen and printer colors vary. Digital swatches do not reproduce metallic effects, translucency, texture, or the influence of primer, thinning and lighting. Check the current manufacturer product information and test paint on a spare piece before committing to a model.
